INTRODUCTION

About Us:

We, Perfect Enterprises, an ISO 9001:2008 Company, manufacturers of BLDC Fans Press and Turned Electrical fan components. We are in this field for last 30 years.

We are one of earliest BLDC Fans manufacturers in India i.e. from 2015.

We manufacture customized products as per the client's requirements. Jupiter BLDC Fans, India's Most Energy Efficient Ceiling Fans. Energy Consumption is as low as 25 watts, 7 speed remote controlled, auto switch-off timer functions and clockwise & anti-clockwise movement which is Best Suited for Air-Conditioned Rooms. Our New development is on IOT fans which works smoothly with Google Voice, Alexa and customized app.

Available in 3 ,4 & 5 Blade variants and different colors, designs and textures.

Quality Policy / Process :

We are one of the most prominent players in the market. And our reputation is aptly based on the quality of the services we offer. All our services are rendered by vocationally trained professionals who are especially trained in their respective sphere of activity. The professionals take special measures to ensure safety of the materials, proper execution of the services and convenience of the customers.

Our Strengths:

We are armed with highly trained and specialized professionals for the execution of the services. Our professionals are familiar with all the finer points of our business and apply them to perfection while executing the services. Besides, we are equipped with the latest gadgetry for the areas that warrant them.

PRODUCT SPECIFICATIONS

**Smart remote
Operable up to 20ft
Distance**

**Saves up to
₹ 1900/-
per year - per fan**

-  Switches Fan on/off
-  Switches LED on/off
-  Boost Speed
-  Auto Switch off after 2 Hours
-  Auto Switch off after 4 Hours
-  Auto Switch off after 6 Hours
-  Auto Switch off after 8 Hours
-  Runs the fan in reverse direction
-  Reduces 10 RPM every hour

Economics of Ceiling fan in India			
	Jupiter 5 BLDC Fan	BEE 1 Star Rated Fan	Regular Fan
Wattage Consumption	25 Watts	50 Watts	75 Watts
Warranty	3 Years	2 Years	1 Years
Air Delivery	210	210	210
Units Consumed per Year	137	274	411
Electricity Cost Per Year (Rs.)	959.00	1918.00	2877.00
Savings Per Year (Rs.)	1918.00	959.00	0.00
Savings for 5 Years (Rs.)	9590.00	4795.00	0.00

1. Usage of 15 hours per day @ 365 days
2. Electricity Charges ₹ 7 Per Unit
3. Saving Calculated on regular fan

STATE OF ART BLDC TECHNOLOGY

BLDC Stands for Brushless Direct Current. The motor runs with the interaction of strong permanent magnets & motor winding. This operation is initiated and controlled by our smart electronics control. With the use of BLDC inverter technology & sensor less algorithm, Our fans consume just 25W at top speed & provide smooth control to your fan.

**Jupiter Fan Controller App for
Android Phones with IR Blaster**

Use the Jupiter Fan Controller App to manage it all. Conveniently set & adjust the fan speed. *Only on Phone having IR Blaster

- An extremely simple to use interface.
- Functions identical to a actual remote control.
- You can control the following using the app.
 - Switch the fan ON/OFF
 - Adjust the fan speed
 - Set a Timer and Switch ON Sleep mode.
 - Switch the LED light ON/OFF
 - Boost Mode ON/OFF

PRODUCT SPECIFICATIONS

Technical Specifications

Type of motor	PM BLDC or Inverter Drive Technology
Fan size	(Sweep) 1200 ±5 mm
Nominal Operating Voltage	230V AC
Motor construction	Totally enclosed type Aluminium Body
Operating Voltage Range	150-270V AC.
ON/OFF and speed control operation	With built-in remote (IR) Sensor for external remote control. Sensor is located for signal sensing through the center of the fan motor bottom cover.
Multiple speed settings	From 150 RPM to max speed in near 6 equal steps from remote
Starting	Fan starts and runs at 150 V AC with maximum achievable RPM
Memorizing last set speed	Fan controller is capable of running at the last set speed, a) the time of Power ON
Type of blades	Aluminium sheet
Motor Lamination & Winding	High Grade CRNO & 22 SWG Insulated Copper Wire
Protection features	Blocked Blade, Over Voltage, Under Voltage and Over Current
Government Compliances	Complaint to IS:374 1979 & BEE 5 Star Certified
